Re: ACT/017/017
Rule M-7

Dear Ron:

Due to a recent Board decision, development of the Frank M Mine has been temporarily suspended. We anticipate the commencement of development work by the first quarter of 1981.

Progress to the time of suspension of operations at the Frank M included site earthwork and leveling, cement batch plant in place, poured cement pads, water well and tank in place, powder magazines completed, and progressed with some road construction. The portal was completed and constructed with concrete. The drift had progressed to approximately 150 feet.

A locked fence has been placed at the portal and "Keep Out" signs have been posted on the property.

Appropriate notification will be given to the Division when operations at the Frank M are to start up again.

Sincerely,

Pam Newman
